

TAKE HOME POINTS

1. Breast MRI entered screening for high-risk women

- Family history, BRCA1/2 mutation carriers, genetic counselling
 - MRI alone (at least for BRCA1)
- Previous radiation therapy
 - Mammography as an adjunct to MRI

2. Discuss prophylactic mastectomy for BRCA+, especially BRCA1 (at least when a first BC is diagnosed)

MRI alone? DWI for cancer detection?

Progress is impossible without change,
and those who cannot change their minds
cannot change anything

George Bernard Shaw (1856-1950)
